EDUCATION

MSc in Software Engineering, University of Limerick 2026 — present
Bachelor of Computer Science, IIIT Vadodara-ICD, GPA: 7.58/10.00 2021 — 2025
Telangana State Board of Intermediate Education, Sri Chaitanya IIT Academy, Hyderabad, GPA: 930/100 2019 — 2021

EXPERIENCE

Full Stack Developer Aug 2025 — Present
SJ Digitech Pvt Ltd Hyderabad, India

Tech Stack: Next.js, Hono, Cloudflare Workers, Cloudflare D1 (SQLite), Cloudflare R2, TanStack Table, Drizzle ORM, Shadcn UI, Tailwind CSS

- **Architected a production-grade recruitment platform** using Nextjs (SSR) and Hono.js on cloudflare workers, optimizing for edge-level performance and overall user experience in real-world usage.
- **Migrated and optimized** the database from **MySQL to Cloudflare D1 (SQLite)**, achieving a **99.9% reduction in storage** (5.3GB to 5MB) through data cleanup and moving large assets to **Cloudflare R2**.
- **Integrated Cloudflare R2** for resume storage to offload large binary files from the database and built server-side paginated, filterable, and virtualized data interfaces to efficiently handle and display **2K+** records.
- **Developed and deployed** a full-stack social welfare platform using **Next.js, MongoDB** implementing *secure donation workflows, volunteer recruitment features*, and modern UI components with **Shadcn UI & Aceternity UI**.

Full Stack Developer (Intern) Feb 2025 — Aug 2025
Oruphones, Mobilics India Private Limited Remote, India

Tech Stack: Next.js (page router), Node.js, Express, MongoDB, Tailwind CSS, ShadCN UI

- Redesigned core pages for Oruphones.com (Phase 2) using Next.js, Tailwind CSS, and ShadCN, improving UI/UX, responsiveness, component reusability, and page load performance.
- Strengthened backend reliability with Node.js and MongoDB by fixing routing and search issues, resolving location-based 404 errors, and implementing secure Google reCAPTCHA authentication.
- Delivered major SEO improvements (URL restructuring, canonical tags, 301 redirects, metadata) and fixed critical frontend/backend bugs using Regex and state optimization, enhancing search visibility, navigation, and platform stability.

PROJECTS

Electronic Health Records, Department of CSE, National Institute of Warangal May 2025 - July 2025

Tech Stack: Solidity, Truffle, Ganache, React.js, IPFS, Blockchain

- Architected a decentralized health record system using Solidity and IPFS, integrated with Pinata for distributed storage—enhancing transparency and reducing record retrieval delays by 20%.
- Integrated RBAC and appointment booking through a responsive React.js interface with Web3-based smart contract communication, ensuring secure role-specific interactions.

Movie Magic, HTML, CSS, JavaScript, SQL, Node.js, Express.js

[GitHub](#)

- Developed a movie ticket booking system backed by an optimized MySQL database, including ER and relational schema design for movies, theaters, and customers.
- Normalized the database to **3rd Normal Form (3NF)**, improving query execution speed by **20%** and reducing database size by **15%**.

ChitOps – Chit Fund Management System, Next.js, Node.js, Express.js, Prisma ORM, PostgreSQL, Docker

[GitHub](#)

- Developed a scalable chit fund management backend supporting multiple chit types, slots, member participation across chits, and complete month-wise lifecycle tracking using a normalized relational database design.
- Implemented modular REST APIs with Prisma ORM and Dockerized PostgreSQL, enabling payout tracking, dynamic monthly payments (base + post-payout extra), payment modes/statuses, and secure, maintainable backend architecture

SKILLS

Languages Javascript, Typescript, C++, Solidity, SQL, BASH, HTML, CSS
Frameworks Next.js, React.js, Node.js, Express.js, Hono.js, Tailwind CSS, Drizzle ORM, Zod, TanStack Table
Web 3 Web3.js, Ethers.js, Hardhat, Truffle, Ganache, Pinata IPFS, Smart Contracts
Databases PostgreSQL, MySQL, SQLite (Cloudflare D1), MongoDB
Cloud & Tools Web3.js, Ethers.js, Hardhat, Truffle, Ganache, Pinata IPFS, Smart Contracts

AWARDS & HONORS

2024 Served as Indoor Club President, leading and organizing multiple events and initiatives.
2024 Winner of the technical competition "Capture the Flag", demonstrating strong problem-solving and technical skills.
Mar 2024 NVIDIA Deep Learning Institute (DLI) certification in deep learning fundamentals.
